Charles Verrier
Associate

charles.verrier@jeremyhyman.co.uk

BACKGROUND

Charles brings over 20 years of experience in delivering Accountancy-specific IT systems. His passion for learning the intricacies and needs of individual practices led him to transition smoothly from providing installation and training to fulfilling senior consultancy and product development roles.

He has earned a reputation for finding out exactly what works for each of his clients, regardless of whether they are sole traders or international corporations. This thoroughness and eye for detail means that he is very highly regarded and receives significant amount of business through referral.

Charles may not actually be an Accountant, but the Accountancy world is his natural habitat!

SKILLS

Charles is both ITIL and PRINCE2 qualified and has key skills in the areas of: -

- GDPR policy and practice
- Procurement and project management
- Resilience planning and disaster recovery
- Business process analysis and design
- Document and records management

Never one to shy away from the task at hand, Charles also still remembers how to wire up a CAT5 socket. If the situation arises where that is required, he'll even bring his own crimping tools!

EXPERIENCE

20 years within the Accountancy software industry included time at Viztopia Software, Solution 6 and MYOB - designing, deploying, and supporting IT projects in the UK, Ireland and Australia.

Charles worked at Moore Stephens LLP, responsible for governance and several varied high-profile client projects, including a payroll system for a ballet shoe manufacturer, an investor management database for an Enterprise Investment Trust, an electronic document library for the recovery of the Costa Concordia in Italy and de-commissioning the document management system used by the 2012 London Olympics.
